TECHNICAL SKILLS

Languages

- Python
- C
- HTML
- CSS
- JavaScript

Tools & Platforms

- Visual Studio Code
- Git & GitHub
- Power BI
- Electron
- Leaflet

CERTIFICATIONS

- Advanced Prompt Engineering – SkillUp
- Introduction to Data Analytics – SkillUp
- AWS Certified AI Practitioner (AIF-C01) – Exam Prep Plan
- Data Visualization using Power BI

STRENGTHS

- Quick learner
- Problem-solving
- Self-motivated

EDUCATION

Course	Institution	Year	Result
B.E. Computer Science and Engineering (IoT)	KLN College of Engineering, Madurai	2023 – Present	CGPA: 8.0*
12th	Madurai Meenakshi Matriculation Higher Secondary School	2023	85%

INTERNSHIP EXPERIENCE

Python Developer Intern — 29 May 2026 – 29 June 2026 (1 Month)

TPED Offshore, Madurai

- Developed an AIS (Automatic Identification System) Navigation application for real-time vessel tracking.
- Designed responsive login page, landing page and navigation interface using HTML, CSS and JavaScript.
- Built an interactive marine navigation map using Leaflet and OpenStreetMap.
- Integrated Python-based AIS transmitter and receiver simulation with serial communication.
- Implemented real-time vessel tracking using WebSocket communication.
- Designed modern maritime dashboard with search, vessel markers and navigation tools.
- Packaged the application as a Windows desktop application using Electron.
- Collaborated with the development team to test, debug and improve the application.

ACADEMIC PROJECTS

Drone Prototype Development

Built a functional drone prototype using basic electronic components, gaining hands-on experience with hardware components and basic control mechanisms.

Data Visualization (Power BI)

Created an interactive Power BI dashboard to analyze student data based on courses, enabling clear visualization of course-wise student metrics and analysis.

ACHIEVEMENT

- Successfully completed internship at TPED Offshore, Madurai as Python Developer Intern (29 May 2026 – 29 June 2026).

LANGUAGES

- Tamil (Native)
- English (Professional Proficiency)
